

## Message from the President Edward L. Applebaum, M.D.

The 2001 meeting of The Triological Society will be held in Palm Desert, California Monday, May 14 through Wednesday, May 16, in conjunction with the Combined Otolaryngological Spring Meetings (COSM). A superb and varied scientific program will take place in a delightful location. In addition to the regular sessions of The Triological Society, joint sessions will be held with the American Rhinological Society and the American Head and Neck Society. The session with the Rhinological Society will feature a panel discussion on the evolution of surgical indications and management of sinus disease and an invited guest speaker, Aldo Stamm, M.D., from Brazil, who will discuss transnasal endoscopic surgery from minimal to maximal. The joint session with the American Head and Neck Society will feature a panel discussion on early laryngeal cancer.

My presidential Guest of Honor for this 104th annual meeting will be Charles W. Cummings, M.D. Byron J. Bailey, MD will be the invited presidential speaker, and the Ogura Lecturer will be Richard Gacek, MD. One of the presidential citations will be given to Burt Brent, MD who will also be an honored guest speaker discussing his 25 years of personal experience with over 1000 cases of microtia repair with rib cartilage. Presidential citations will also be given to William W. Montgomery, MD and Richard R. Royer, MD.

Poster sessions have become increasingly popular and there were many fine

## Sunny Palm Desert, California Welcomes the 104th Annual Meeting

The Desert Springs Marriott will again host the 104th Annual Meeting May 14–16, 2001. A record number of abstracts were submitted for the scientific program, in part due to the availability and ease of use of on-line abstract submission. Early registration and housing deadlines are April 13th. Registration materials were sent to Triological Society members in January. Additional information and forms may be downloaded at <http://www.entnet.org/meeting.html>. Registration forms may also be obtained via fax on demand at 1-888-292-2703. For international fax on demand, call 1-503-402-1374. The document codes are 6240/schedule, 6241/registration, 6242/housing and transportation.

## Drs. Joseph Feghali and J. Christopher Post to Receive Mosher and Fowler Awards

Joseph G. Feghali, MD

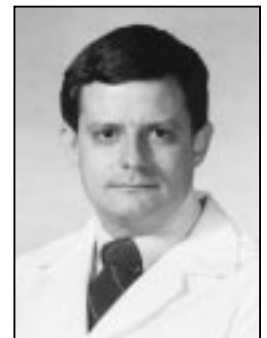

The Council has selected the 2001 winners of the prestigious Mosher and Fowler Awards. **Joseph G. Feghali, MD**, Bronx, New York, was selected as the Harris P. Mosher Award Winner for his thesis, "L-NAC Protection Against Cisplatin-Induced Auditory Neuronal and Hair Cell Toxicity." **J. Christopher Post, MD** of Pittsburgh, was named as winner of the Edmund P. Fowler Award for his thesis, "Direct Evidence of Bacterial Biofilms in Otitis Media." Presentation of the awards

will take place during the Annual Meeting in Palm Desert.

Two physicians will receive certificates of Honorable Mention for their theses. The honoree for Basic Research is **William H. Lindsey, MD** of McLean, Virginia. **Mark S. Courey, MD** of Nashville, Tennessee will be honored for Clinical Research.

Dr. Feghali, the Mosher Award Winner, is a Clinical Professor of Otolaryngology at the Albert Einstein College of Medicine in New York. He was proposed for membership by Robert J. Ruben, MD, Bronx, NY, and Jack J. Wazen, MD, New York. Dr. Post, the Fowler Award winner, is Professor of Otolaryngology at MCP Hahnemann School of Medicine and serves as the Director of Pediatric Otolaryngology and Medical Director of the Center for Genomic Sciences, both at Allegheny General Hospital in Pittsburgh. Dr. Post was proposed for membership by Charles D. Bluestone, MD, and Eugene N. Myers, MD, both of Pittsburgh.

Dr. Lindsey was awarded the Honorable Mention for his thesis entitled "Osseous Tissue Engineering." He was nominated for membership by Charles W. Gross, MD,

## Past President

# Carl N. Patterson, M.D., Dies

*CARL NORRIS PATTERSON, 1918–2001*

by William R. Hudson, MD, Historian

When Carl Patterson died February 22nd, our specialty lost a dedicated and innovative physician and many of us lost a friend. Carl was the epitome of the academically oriented private practitioner. He was an exceptional teacher, assisting in the training of many residents, both at McPherson Hospital and at the Duke University Medical Center. His example, as a compassionate, well loved physician, and as a perfectionist in his technical skills, influenced young residents and his colleagues. Carl was the universal otolaryngologist, mastering general otolaryngology, facial plastic surgery and later, his true passion, otology.

Carl received his education at Franklin and Marshall College and the University of Maryland School of Medicine and completed his residency at Mercy Hospital in Baltimore. He served as a surgeon in the Navy during World War II. He was a member of most of our society's specialty organizations as well as the American Medical Association and the American College of Surgeons. Not being content to be only a member, Carl's leadership abilities were evident, locally and nationally. He was president of the North Carolina Society of Otolaryngology and founded the Training Center for Hearing Impaired Children in Durham. Nationally, he served as vice president of the American Academy of Otolaryngology-Head and Neck Surgery, as one of the early presidents of the American Society of Facial Plastic and Reconstructive Surgery, and, in 1984, became President of the American Laryngological, Rhinological and Otolological Society.

Carl loved the Triological Society, participating fully in its social and scientific programs. In his presidential address he said, "Let each of you use the Triological Society as your touchstone, finding in it the amalgamation of the glorious record of its past, the dynamic present, and the portent for a vigorous growth for the future."

On a personal note, Carl was a friend and colleague for forty years. He served as an Associate Clinical Professor of Otolaryngology at the Duke University Medical Center. His friendship, support and advice, over the years, have been of inestimable value to me and to the department. As a measure of his thoughtfulness, I remember moving into a new home some years ago. Carl and Ruth came over before we unpacked, bringing a bottle of champagne and glasses. We sat on packing cases, toasting our friendship and our new home.

Carl is survived by his lovely wife of 57 years, Ruth, whose love for the Triological equaled his, by a daughter, Patricia Patterson LeClerc of Canton, N.Y., two sons, Lee Austin Patterson of Durham, N.C., Carl Norris Patterson, Jr. of Raleigh, N.C., and three grandchildren.

Finally, I again quote from his presidential address. In referring to the remarkable advances in medicine, he stated, "We need in our specialty inquisitive physicians who have the simplicity to wonder, the ability to question, the power to generalize, and the capacity to apply." Carl had all of the attributes.

We will miss him.

and Robert W. Cantrell, MD, both of Charlottesville, VA.

Dr. Courey was awarded an Honorable Mention for his thesis entitled "Homologous Collagen Substances for Vocal Fold Augmentation." He was nominated for membership by Robert H. Ossoff, MD, and James L. Netterville, MD, Nashville.

These four award winners were among 16 candidates whose theses were approved by the Triological Society Council in January.

The remaining 12 candidates and their theses are:

Roy R. Casiano, MD, of Miami, FL, "A Stepwise Surgical Technique Using the Medial Orbital Floor as the Key Landmark in Performing Endoscopic Sinus Surgery." Nominator: J. Ryan Chandler, MD; seconder Thomas J. Balkany, MD.

Karen Jo Doyle, MD, of Sacramento, CA, "Delayed, Reversible Hearing Loss Caused by Difluoromethylornithine (DFMO)." Nominator: Antonio De la Cruz, MD; seconder: Carol A. Jackson, MD.

Bruce L. Fetterman, MD, of Memphis, TN, "Distortion-Product Otoacoustic Emissions and Cochlear

Microphonics: Relationships in Patients with and without Endolymphatic Hydrops." Nominator: John R. Emmett, MD; seconder: John J. Shea, Jr., MD.

Michael E. Hoffer, MD, of San Diego, CA, "Transtympanic vs. Sustained Release Administration of Gentamicin: Kinetics, Morphology, and Function." Nominator: Darrell H. Hunsaker, MD; seconder: Herbert Silverstein, MD.

Pierre Lavertu, MD, of Cleveland, OH, "P53 and Ki-67 as Outcome Predictors for Advanced Squamous Cell Cancers of the Head and Neck Treated with Chemoradiotherapy." Nominator: Sam E. Kinney, MD; seconder: Marshall Strome, MD.

Randall P. Morton, MB, of Auckland, New Zealand, "Studies in Quality of Life of Head and Neck Cancer Patients: Results of a Two Year Long Longitudinal Study and a Comparative Cross-Cultural Study." Nominator: Arnold M. Noyek, MD; Seconder: Julian M. Nedzelski, MD.

Edward J. Reardon, MD, of Quincy, MA, "Clinical Effects of Implementing a Navigational System for Sinus Surgery." Nominator: Joseph B. Nadol, MD; seconder: William W. Montgomery, MD.

Michael J. Ruckenstein, MD, of Philadelphia, PA, "Therapeutic Efficacy of the Epley Canalith Repositioning Maneuver." Nominator: David W. Kennedy, MD; seconder: Julian M. Nedzelski, MD.

James D. Sidman, MD, of Minneapolis, MN, "Distraction Osteogenesis of the Mandible for Airway Obstruction in Children." Nominator: Harold C. Pillsbury, MD; seconder: Merrill A. Biel, MD.

Timothy L. Smith, MD, of Milwaukee, WI, "Electrosurgery in Otolaryngology-Head and Neck Surgery: Principles, Advances, and Complications." Nominator: Phillip A. Wackym, MD; seconder: Harold C. Pillsbury, MD.

Marilene B. Wang, MD, of Los Angeles, CA, "Antisense Cyclin D1 Enhances Sensitivity of Head and Neck Cancer Cells to Cisplatin." Nominator: Thomas C. Calcaterra, MD; seconder: Paul H. Ward, MD.

Peter C. Weber, MD, of Charleston, SC, "Potassium Pathways in the Human Inner Ear." Nominator: Warren Y. Adkins, MD; seconder: J. David Osguthorpe, MD.

Applications for resident, post-graduate and associate members are available by contacting 402-346-5500.

## Laryngoscope News

### On-Line Access:

The Laryngoscope journal was made available on-line to subscribers only effective January 1st. Several instructional mailings to subscribers detailing how to access the journal electronically have been sent by Lippincott. A key piece of information necessary to access the electronic journal is the Advantage number (subscription number), which is the 12-digit number found on the top line of your journal mailing label. Subscriber numbers have been entered into the Society database so Triological Society members may access their subscription numbers in case the numbers are misplaced.

### Laryngoscope Subscription Renewal:

It has come to the attention of the Administrative office that Lippincott recently sent mailings to members either billing for the journal or offering an opportunity to subscribe to the journal. **Dues paying** members of the Triological Society automatically receive a subscription to the journal through the Society as a membership benefit. Please advise your offices **NOT** to forward payment or inquiries to Lippincott. The administrative office, however, would appreciate it if you would fax a copy of your notices to 402-346-5300.

### Subscription Address Changes:

Changes of address for your journal should be given to the Administrative office rather than Lippincott.

posters selected for this year's meeting. A reception held in the poster viewing area will give attendees an opportunity to meet the poster presenters and to discuss their work.

The Triological Society banquet will be held Tuesday evening, May 15th. This year the banquet will be more in the style of an enjoyable party with a terrific entertainer, Mr. John Charles. This man is guaranteed to bring a smile to everyone's face as he performs his delightful musical act with a great deal of charming humor. This will be a fun evening that will be followed by something new. A lounge-like atmosphere will be set up in an adjoining room to follow the entertainment and dinner. A small jazz ensemble and singer will provide a perfect setting for getting together with friends to enjoy an after-dinner drink and conversation.

The scientific program, social events, and great location should make this an annual meeting that you will not want to miss.

I look forward to seeing you in Palm Desert.

# Section Award Resident Travel Grants

In keeping with one of the missions of the Triological Society, “to provide for physician development,” the Triological Society awarded \$40,000 in travel grants to residents to travel to and present at the Section Meetings held in January, 2001. Section Vice Presidents and their program advisory committees recognize the residents based on abstracts and papers chosen for presentation. Residents may receive up to a \$500 award. In addition, \$2,000 was awarded by each Section to fund resident travel to attend the Triological Society’s annual meeting (COSM) in May, 2001. The Council established the resident travel award funds in 1998 to further promote involvement of the residents in the Section meetings.
